# G&L CUSTOM SHOP

## THE FINEST FROM FENDER AVENUE

The quality of the instruments and variety of options available in the main G&L factory are legendary, and that's precisely the reason why the G&L Custom Shop has opened. You see, some owners love everything about their Made-in-Fullerton G&Ls, but there's always been one option they have never been able to select. That is, they want the very best of G&L: the finest cuts of wood and unsurpassed craftsmanship coming together in the most spectacular instruments ever made on Fender Avenue.

It starts with hand selected woods, carefully chosen for each instrument, and continues with very best craftsmanship and attention to detail. It's not just what you see, but what you feel that makes the difference. From exquisite fretwork to pickguard edges delicately sanded and buffed to feel like an instrument loved and played for decades.

Thin urethane finishes polished to perfection. Players who prefer a tastefully worn in look can opt for light to medium aging which projects an authentic vibe. Even more options are available than in the G&L main factory, including pickups hand-wound on Leo Fender's personal 1960s hand winder.

The Custom Shop is where the ultimate G&L instruments are crafted.
